# Things to Know About SummaCare Topaz, Garnet and Ruby

## What do we cover?

SummaCare Medicare Advantage plans cover everything Original Medicare covers and more. All of our plans include Medicare (Part D) prescription drugs. You can see the complete plan formulary (list of covered drugs) and any restrictions on our website, [summacare.com/medicare](https://summacare.com/medicare). Or, call us and we will send you a copy of the formulary.

## How will I determine my drug costs?

Our plan groups each medication into one of six “tiers.” You will need to use SummaCare’s Medicare formulary (list of covered drugs) to locate what tier your drug is in to determine how much it will cost you. The amount you pay depends on the drug’s tier and what stage of the benefit you have reached. Later in this document, we discuss the benefit stages that occur: Part D deductible, Initial Coverage Stage, Coverage Gap Stage and Catastrophic Coverage Stage.

## Which providers, hospitals and pharmacies can I use?

SummaCare Medicare Topaz, Garnet and Ruby have a network of providers, hospitals and pharmacies. If you use providers that are not in our network, the plan may not pay for these services – except for emergency, urgent and out-of-area renal dialysis services. Out-of-network/non-contracted providers are under no obligation to treat SummaCare members, except in emergency situations. Please call our Member Services number or request an Evidence of Coverage document for more information, including the cost sharing that applies to out-of-network services. You must generally use network pharmacies to fill your prescriptions for covered Part D drugs. You can see our plan’s provider directory on our website, [summacare.com/medicare](https://summacare.com/medicare), or call us and we will send you a copy of the provider directory. The plans in this Summary of Benefits document also include Visitor/Travel coverage.

## Part D Prescription Drugs continued

Important message about what you pay for insulin: You won't pay more than \$35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on.

If you reside in a long-term care facility, you pay the same as at a retail pharmacy. You may get drugs from an out-of-network pharmacy, but may pay more than you pay at an in-network pharmacy.

Coverage  
Gap Stage

Most Medicare drug plans have a coverage gap (also called the “donut hole”). This means that there’s a temporary change in what you will pay for your drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches \$4,660.

After you enter the coverage gap, you pay 25% of the plan's cost for covered brand name drugs and 25% of the plan's cost for covered generic drugs until your costs total \$7,400, which is the end of the coverage gap. Not everyone will enter the coverage gap.

Under this plan, you may pay even less for the brand and generic drugs on the formulary. Your cost varies by tier. You will need to use your formulary to locate your drug's tier. See the chart that follows to find out how much it will cost you. All Tier 1 (Preferred Generic) drugs (retail and mail-order) are covered at a \$0 copay if you enter the Coverage Gap. Tier 6 Select Care Drugs and Vaccines are also covered at a \$0 copay through the Coverage Gap.

Catastrophic  
Coverage  
Stage

After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail-order) reach \$7,400, you pay the greater of

- 5% of the cost, -OR-
- \$4.15 copay for generic (including brand drugs treated as generic) and a \$10.35 copay for all other drugs
